

A Guide to **UNDERSTANDING DRIVER RECORDS**

Driver Services
April 2024

FOR DRIVER'S LICENSE RECORD/ILETS USERS:

The information contained in this guide is intended for use by law enforcement officers, insurance carriers, employers and others who access and view Idaho driving records. This guide has been developed to help you request and understand Idaho driving records.

Comments or suggestions on improving this guide should be directed to Driver Services at (208) 584-4343.

Mission: To provide efficient, accurate customer service for drivers by testing driving skills and knowledge, providing photo identification, maintaining current records, promoting driver safety in compliance with federal and state laws, and inviting open communication and cooperation between Driver Services, other agencies and the public in support of the mission and goals of the Division of Motor Vehicles and the Idaho Transportation Department.

MULTIPLE BASE RECORDS

There is the potential that multiple records may exist at the same time for the same person. Always run a check under any AKA (Also Known As) you may be aware of. As multiple records may exist, confirm there is a good match by comparing the name, date of birth, and social security number. If the same AKA/DLN (driver license number) is listed on the record of two or more different people, the system will retrieve all records. (If you find the same person listed under two (2) DLNs in the system, please notify Driver Services).

NO MORE THAN ONE DRIVER'S LICENSE POLICY

Section 49-301, Idaho Code prohibits a person from possessing multiple licenses. Exceptions:

- A person may have a driver's license (DL), a commercial driver's license (CDL) learners permit (CLP), and/or motorcycle instruction permit.
- A foreign (including Canada and Mexico) non-commercial driver's license is not surrendered when obtaining an Idaho non-commercial license. Applicants are advised that they cannot use the foreign license once they have been issued an Idaho license. Always check the Idaho system when presented with a foreign license to verify that the individual has not been issued an Idaho driver's license.

NAME FORMATTING

Driver Services uses specific formatting when entering a name on the driver license (DL) system. This is done in accordance with Idaho Rules, the American Association of Motor Vehicle Administrators (AAMVA), PDPS and CDLIS standards.

The following guidelines and examples will assist in finding a name match on the driver license system.

- Only **LEGAL** names should be entered on the name line of the record.
- The maximum number of characters for the name format is 26, including spaces. When possible, names should be entered in their entirety. If the full name exceeds the allowed 26 characters, enter the last name, the first full name and then the first letter of the middle name until the entry equals or is less than the 26 characters allowed.
- Spaces are required to separate last, first and middle names. A hyphen, apostrophe and/or a space are the only punctuation marks allowed as part of a legal last name. A comma is used only to separate last and first name. Applicants (men or women) may use their pre-marriage surname as their middle name or have it hyphenated as part of the last name
- Designations such as I, II, III, JR and SR must be entered. They are entered as the middle name or after the middle name as 1st, 2nd, 3rd, etc.
- Single names are treated as a last name and must be followed by a comma.

To find a record on ILETS by using the name, you must match as much of the full name as possible as it appears in the driver license system. If possible, always confirm a record found with date of birth, DLN, social security number and address.

A partial name along with the date of birth can be used on the DQ/KQ. If a record is found, the complete name will appear. If a record is found but the OLT does not show a driver's license, re-run inquiry using OLN to get the driving record information.

PDPS/CDLIS

PDPS– *The Problem Driver Pointer System* is an on-line national system operated by the National Driver Register (NDR) that directs an inquiring state to any state(s) where action has been taken on an applicant's driving privileges. PDPS immediately notifies the state where a withdrawal has occurred to send the driver's current status to the inquiring state.

In most cases, the information received from PDPS will eliminate the use of ILETS in the application process. The issuance of a new/renew/duplicate license cannot be accomplished if there is a withdrawal in any state.

CDLIS – *The Commercial Driver's License Information System* operates much like PDPS. It is an on-line "pointer system" and clearinghouse for information relating to licensing of commercial motor vehicle (CMV) drivers. Anyone applying for a CDL (new, renew, or duplicate) in Idaho is checked on-line through CDLIS before issuance occurs.

CDLIS also allows for the electronic transfer of convictions received by a CDL holder or a non-CDL holder operating a CMV to the current State of Record (SOR). If a current out of state CDL holder applies for and is issued an Idaho CDL, the current SOR will electronically forward all information to the new SOR. If part of the information received includes convictions for which the new SOR does not add to a record, they will not show on the ILETS record.

S2S – The *State to State Verification Service System* is a means for states to electronically check with all other participating states to determine if the applicant currently holds a driver license or identification card in another state.

If a current out of state CDL holder applies for and is issued an Idaho CDL, the current SOR will electronically forward all information to Idaho. If part of the information received includes convictions for which Idaho does not add to a record, they will not show on the ILETS record.

POINT SYSTEM (Also see Table V, pg 15-17)

Convictions

Moving violation convictions are assigned a point value from 1 to 4 points, depending on the violation type, and are entered onto the driver's record. Driver Services posts convictions received from Idaho courts, out-of-state courts and Canadian courts.

Point Accumulation

All driving records are continuously evaluated and the department will take the following action on an individual's driving privileges for the accumulation of points.

<u>Number of points:</u>	<u>Penalty</u>
12 to 17 in 12 months.....	30-day suspension
18 to 23 in 24 months.....	90-day suspension
24 or more in 36 months.....	180-day suspension

Defensive Driving Course (DDC) **

Once every three (3) years a driver may reduce their point accumulation total by three points if they complete an approved defensive driving course (DDC). Completion of a DDC does not remove convictions from the driving record. The completion of a DDC will have no effect on any CDL disqualifying action.

Traffic Safety Course (TSC) **

Once every three (3) years a driver may reduce their total point accumulation by completing a city sponsored Traffic Safety Education Course (TSC). This course must be offered to and accepted by the driver at roadside at the time of citation. Upon completion of the course it will remove the number of points associated with the citation (1-4 points) from the driver's record. Not all cities will opt to have such a program and, for those that do, the course is offered at the discretion of the law enforcement officer at the time of the stop. Completion of a TSC does not remove convictions from the driving record. The completion of a TSC will have no effect on any CDL disqualifying action.

**** NOTE: A DRIVER IS ONLY ALLOWED TO REDUCE THE POINT ACCUMULATION TOTAL ON THEIR RECORD ONE TIME WITHIN A 3-YEAR PERIOD REGARDLESS IF IT IS FROM A DDC OR A TSC.**

CDL ISSUES/DISQUALIFICATIONS

Certain traffic violations received while operating a CMV or a non-CMV (reckless or fatal accident) are considered serious moving violations and can cause a disqualification of CMV privileges in addition to a withdrawal action for point accumulation or a suspension (reckless or fatal accident). Violations of railroad grade crossing laws will result in a disqualification of CMV privileges. Bond forfeitures and withheld judgments are treated as guilty dispositions if committed by a CDL holder. Major offenses (DUI, ALS, Refusals) committed by a CDL holder in any type of motor vehicle will result in a 1 year loss of CMV privileges for 1st offense and a lifetime loss of CMV privileges for a 2nd offense. (Refer to Chapter 1 of the CDL driving manual for more information on CDL disqualifications and for a complete list of serious violations.)

DRIVER LICENSE COMPACT (DLC)

The DLC is an agreement in which many states have entered into regarding the consistent implementation of driving laws. Membership is necessary to maximize law enforcement efforts against drunk drivers and other serious traffic offenders from state to state.

The DLC allows for the:

- Member states to report convictions on out-of-state drivers to the licensing state.
- State of licensure to take the same action on any violation(s) reported to them by other member states as if the violation(s) occurred in the state of licensure.
- Authority to deny issuance of a driver's license if there is a withdrawal in another state(s).

The Driver License Agreement (DLA) is a new interstate compact written by the Joint Executive Board of the DLC and the NRVC and at some point in the future will become the primary driver license compact in North America. The purpose of the DLA is to combine and improve the provisions of the DLC and NRVC and make them more enforceable. The DLA also provides for membership and participation by the Provinces/Territories of Canada and the States/Federal District of Mexico.

RENEWAL BY MAIL (RBM)

The RBM program allows for valid Class D license holders, 21 to 69 years of age, to renew their license for a 4-year period without making a trip to a county office. Eligible applicants for RBM will be sent a letter of instructions and of eligibility 60 to 90 days before the expiration of their license. An applicant renewing by mail will receive a new license via mail that is produced from the digital photo on record. The RBM option is only available every other 4 year renewal cycle.

NO INSURANCE CONVICTION/SUSPENSION

A first offense for "failure to provide insurance" is an infraction and carries a one-year suspension; a 2nd offense in 5 years of this violation is a misdemeanor carrying a three-year suspension. The reinstatement fee is the same for 1st, 2nd and subsequent convictions for violation of these codes. The time required to maintain an SR-22 coincides with the length of suspension. Failure to maintain the SR-22 during the required time frame will result in the suspension being reactivated until the SR-22 and fee requirements are met.

The SR-22 is a document provided by a driver's insurance carrier. An SR-22 provides proof of financial responsibility and when an SR-22 is issued, the insurance carrier agrees to notify the department via an SR26 if the policy and coverage has been canceled or terminated.

DRIVING RECORDS AND TELETYPE RECORDS

All department records reflect the ordinance degree on driving records, court packet records, and teletype records. The ordinance degree will only appear if it is reported by the court on a conviction record. This will assist the officer in knowing when to cite for a misdemeanor or an infraction. It is abbreviated as follows “INFR” infraction, “MISD” misdemeanor, “FLNY” felony. A short example is shown below.

To obtain photos via ILETs select ‘NCIC Image Indicator’ on a DQ or ‘Image Indicator’ on a KQ message.

To obtain standard driver’s information, use ILETs (DQ) Format. This will also return a complete record.

To obtain driver’s license record information, using the ILETs (KQ) format will return a complete driver record (tickets, suspensions, etc.) along with the standard driver’s information.

To obtain additional driver’s license information, contact Driver Services, call (208) 584-4343 Monday – Friday, excluding holidays, 0700-1730 MST.

DMV WEBSITE

The DMV has a home page on the Internet where you can access general information regarding Driver Services, Vehicle Services, and Motor Carrier Services. There are many application and services available on line. You can visit the main DMV website at dmv.idaho.gov.

ADDRESS CHANGES

Please advise drivers and car owners that Idaho law requires their address be updated with the DMV, via written request, within 30 days after moving. A current address enables drivers to receive information about registration renewals, driver license actions and in the case of an accident gives law enforcement the ability to locate the next of kin.

DRIVER'S LICENSE RECORDS (DLR)

A DLR is a record of convictions, points assessed, and actions incurred by a motorist while driving in any state. An Idaho driving record covers the most current three years; however, an all year record is available upon request.

A DLR is available on-line at <https://www.accessidaho.org/secure/itd/dlr/interactive/search.html> or at some county driver license offices.

A DLR can also be obtained directly from the DMV by submitting a written request via USPS or email. The request must include the full name, driver's license number, date of birth, and return mailing address. Requests must also include the Visa/Mastercard number and expiration date. If paying by check or money order, make it payable to the Idaho Transportation Department and mail the request to:

Idaho Transportation Department
Driver Services
PO Box 34
Boise, ID 83731-0034

or email: dmvhelp@itd.idaho.gov

The cost of a DLR is \$7.00. If purchased via the on-line process or with a credit/debit card, a service fee and any applicable bank charges will be applied to the card transaction. There is no cost if requested by an Idaho government agency.

REINSTATEMENT PROCESS AND FEES

A reinstatement application along with any fees and/or documentation is required whenever the court or the department has taken any withdrawal action on a driving record. If there are multiple withdrawals, the reinstatement fee owing is the highest single amount; however, if there are multiple Title 18 Idaho Code offenses, a separate reinstatement fee will be due for each withdrawal. Reinstatement fees can be paid by mailing a check or money order to the department or paid online with a credit or debit card at <https://www.dmvonline.itd.idaho.gov>. Fees can also be paid by Visa/MasterCard credit or debit card by calling Driver Services at (208) 584-4343.

NOTE: If fees are paid via the on-line process or by credit/debit card, in addition to the fees listed below, a service fee and any applicable bank charges will be applied to the card transaction.

The fees are as

follows:	\$25.00	\$45.00	\$85.00	\$245.00	\$285.00
Medical/Visual Failure to Maintain Insurance (SR-22 cancelled) Points Based Unsatisfied Judgment Family Responsibility /Child Support Failure to Attend School	Serious CDL Violation DQ	No Insurance Leaving the scene of an accident Eluding a peace officer Reckless driving Driving without privileges, misc. court suspensions Violation of restriction	Out-of-state conviction for DUI/Refusal or ALS Refusal, Title 18 Administrative License Suspension ALS, Title 18 Administrative License Suspension	Idaho conviction for DUI (including a withheld judgment)
